Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. Public enjoyment of recreational features and facilities may be reduced in the absence or delay of implementing these projects.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and order that the undertaking is exempt from the application of the Act for the following reasons:

- A. The activities referred to in this order are not considered to be of the type which may have significant harmful effects on the environment;
- B. I am advised that all other permits or approvals which may be required for the purposes of ensuring environmental protection in the carrying out of these projects are obtainable;
- C. I am advised that these projects, when commenced, were determined to have such minimal adverse environmental impact that the Act was inadvertently overlooked.

This exemption is subject to the following terms and conditions:

1. Copies of plans for each project will be made available for inspection by the public at the appropriate District Office of the Ministry of Natural Resources.
2. The Ministry of Natural Resources shall ensure that all permits or approval which may be required by the *Environmental Protection Act* or which are usually voluntarily obtained under the *Ontario Water Resources Act* are obtained.

3. The Projects included in this undertaking are:

Exemption—Ministry of Transportation and Communications—MTC-45.

Made—October 23rd, 1981.

Approved—October 23rd, 1981.

Filed—November 3rd, 1981.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF TRANSPORTATION AND COMMUNICATIONS—MTC-45

Having received a request from the Minister of Transportation and Communications that an undertaking, namely:

The activity of planning, design, construction and operation of the Highway 410 from the northerly boundary of the Parkway Belt northerly to and including the Bovaird Drive interchange and then westerly to Highway 10 north of Brampton,

be exempt from the application of the Act pursuant to Section 29; and

Having been advised by the Minister of Transportation and Communications that if the undertaking is

subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The schedule for implementation of the undertaking has been sufficiently accelerated as a result of Government commitments to the B.I.L.D. program that the time required to comply with the Act will interfere with the Crown's ability to implement the undertaking in accordance with public commitments to this schedule.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The government has made public commitments to implement this undertaking in accordance with an accelerated schedule that does not allow sufficient time to comply with the Act;
- B. The route was designated in 1974 and municipal zoning, installation of services and private development have all taken place based on compatibility with this designation, and limiting flexibility for future route relocation;
- C. An active public participation program took place during both planning and design phases;
- D. Resolutions have been received from the Regional Municipality of Peel and the City of Brampton in support of this undertaking; and
- E. Municipal arterial streets will be relieved of heavy truck traffic at an earlier date, thereby reducing the noise and vibration currently affecting homes adjacent to Main Street, Kennedy Road, Dixie Road and Steeles Avenue in the City of Brampton.

This exemption is subject to the following terms and conditions:

1. The Ministry of Transportation and Communications shall submit a copy of an Environmental Status Statement covering the planning, design and construction of the undertaking, for information purposes, at least 30 days prior to the commencement of construction to the Environmental Approvals Branch of the Ministry of the Environment for inclusion in the Public Record.

2. The Ministry of Transportation and Communications shall notify all Provincial Ministries and agencies, municipalities and individuals that were previously involved in the planning of this undertaking of this order and a schedule of those notified will be filed with the Environmental Approvals Branch of the Ministry of the Environment for inclusion in the Public Record. Having received a request from the Minister of Transportation and Communications that an undertaking, namely:

The activity of planning, design, construction and operation of the Highway 403 from Highway 5 to the Q.E.W. (Freeman Interchange),

be exempt from the application of the Act pursuant to Section 29; and

Having been advised by the Minister of Transportation and Communications that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The schedule for implementation of the undertaking has been sufficiently accelerated as a result of Government commitments to the B.I.L.D. program that the time required to comply with the Act will interfere with the Crown's ability to implement the undertaking in accordance with public commitments to this schedule.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The government has made public commitments to implement this undertaking in accordance with an accelerated schedule that does not allow sufficient time to comply with the Act;
- B. The construction of this section of Highway 403 is an integral part of the overall Highway 403 link from Highway 401 to the Freeman Interchange; and;

1. The Ministry of Transportation and Communications shall submit a copy of an Environmental Status Statement covering the planning, design and construction of the undertaking, for information purposes, at least 30 days prior to the commencement of construction to the Environmental Approvals Branch of the Ministry of the Environment for inclusion in the Public Record.

Avenue,

be exempt from the application of the Act pursuant to
Section 29; and

Having been advised by the Minister of Transpor-
tation and Communications that if the undertaking is
subject to the application of the Act, the following

property indicated will occur:

- A. The schedule for implementation of the

as a result of Government commitments to
the B.I.L.D. program that the time required

to this schedule.

Having weighed such injury, damage, or interfer-

REGULATION TO AMEND
ONTARIO REGULATION 284/74
MADE UNDER THE
PLANNING ACT

1. Section 1 of Ontario Regulation 284/74, as
remade by section 14 of Ontario Regulation
334/76, is amended by adding thereto the fol-
lowing clauses:

2. The said Regulation is amended by adding thereto the following section:

8. Notwithstanding any other provision of this Order, the land described in Schedule 3 may be used for the erection and use thereon of a building for use as bagging facilities, as an accessory building to a bean cleaning plant, provided the following requirements are met:

THE ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 739/81.
Exemption—Ministry of Transportation and Communications—MTC-48.
Made—October 29th, 1981.
Approved—October 29th, 1981.
Filed—November 5th, 1981.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF TRANSPORTATION AND COMMUNICATIONS —MTC-48

Having received a request from the Minister of Transportation and Communications that an undertaking, namely:

The activity of design, construction and operation of Highway 427 from Highway 409 to Highway 7 including the Finch Avenue extension from Highway 427 interchange northwesterly to Steeles Avenue,

be exempted from the application of the Act pursuant to Section 29; and

Having been advised by the Ministry of Transportation and Communications that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. The schedule for implementation of the undertaking has been sufficiently accelerated as a result of Government commitments to the B.I.L.D. program that the time required to comply with the Act will interfere with the Crown's ability to implement the undertaking in accordance with public commitments to this schedule.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act.

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The government has made public commitments to implement this undertaking in accordance with an accelerated schedule that does not allow sufficient time to comply with the Act;
- B. The route was designated in 1968 and municipal zoning, installation of services and private development have all taken place based on compatibility with this designation;
- C. The portion of this undertaking between the Humber River and Highway 7 is largely within the Parkway Belt and therefore was publicly discussed as part of the Parkway Belt hearings; and

D. An active public participation program took place during both the planning and design phases.

This exemption is subject to the following terms and conditions:

1. The Ministry of Transportation and Communications shall submit a copy of an Environmental Status Statement covering the planning, design and construction of the undertaking, for information purposes, at least 30 days prior to the commencement of construction to the Environmental Approvals Branch of the Ministry of the Environment for inclusion in the Public Record. The Environmental Assessment on Highway 427 from Rexdale Blvd. to north of the Humber River and the related addendum materials shall form a part of this Statement.
2. The Ministry of Transportation and Communications shall notify all Provincial Ministries and agencies, municipalities and individuals that were previously involved in the design of this undertaking of this order and a schedule of those notified will be filed with the Environmental Approvals Branch of the Ministry of the Environment for inclusion in the Public Record.

THE ASSESSMENT ACT

O. Reg. 760/81.

Equalization of Assessments Made Pursuant to Section 63 of the Assessment Act.

Made—November 6th, 1981.

Filed—November 13th, 1981.

REGULATION MADE UNDER THE ASSESSMENT ACT

EQUALIZATION OF ASSESSMENTS MADE PURSUANT TO SECTION 63 OF THE ASSESSMENT ACT

1. The equalization of assessments under the Act in each prescribed class of real property necessary in order to provide, for each municipality specified in the Schedule to this Regulation, assessments of real property that, in accordance with section 63 of the Act, will be equitable one with the other in each prescribed class of real property shall include, as standards to be taken into account in such equalization and the computation of the factors resulting therefrom, the following considerations:

1. The proportion that the municipal and school taxes levied for the year 1981 against the total assessment of real property in each prescribed class of real property is of the total municipal and school taxes levied for the year 1981 in the municipality shall be maintained to the extent that, if that single mill rate that would have been required to produce in the year 1981 the amount of municipal and school taxes levied in that year against the total assessment of the prescribed class of real property were applied to the total assessment for that prescribed class of real property resulting from the application of the factors hereafter in this Regulation prescribed for that class of real property in that municipality, the municipal and school taxes that would have been so levied for the year 1981 from the total assessment for that prescribed class will be substantially the same total amount for that prescribed class of real property as was actually levied in the municipality for the year 1981 against the total assessment for that prescribed class of real property in that municipality.
2. All real property within a prescribed class of real property in the same municipality shall, as nearly as may be, be assessed at the same proportion of the market value of such real property in the year 1978, as that market value is determined by the Assessment Commissioner in whose Assessment Region such real property is located.

3. The total assessment, including assessments made under section 32 or 33 of the Act, of the real property in a municipality to which this Regulation applies shall not be increased or decreased substantially.

4. Equitability of assessment of real property within each prescribed class of real property in the same municipality shall be established without significant alteration of the assessment relationships between prescribed classes of real property in the same municipality, provided that this paragraph does not apply to affect changes in the assessment relationship between prescribed classes of real property that result from an increase in the total assessment of a prescribed class of real property by reason of assessments made under section 32 or 33 of the Act. O. Reg. 760/81, s. 1.

2. This Regulation applies to the municipality named in the Schedule to this Regulation and to the assessment to be shown on the assessment roll to be returned in that municipality for the year 1981 for taxation in the year 1982. O. Reg. 760/81, s. 2.

3. For the purposes of this Regulation, the real property situate in the municipality named in the Schedule to this Regulation shall be divided into the prescribed classes of real property that are designated in the said Schedule for that municipality, and all real property in the municipality shall be allocated to that prescribed class of real property that most nearly describes the physical nature and characteristics of the real property. O. Reg. 760/81, s. 3.

4. For the purposes of this Regulation, the factor to be applied to the market value, as determined in accordance with paragraph 2 of section 1, of real property in each prescribed class of real property in the municipality shall be that shown in the Schedule to this Regulation opposite the number of the prescribed class applicable to that municipality. O. Reg. 760/81, s. 4.

5. For the purposes of this Regulation, the following classes of real property are prescribed:

CLASS 1

Property assessed either,

- (a) as residential and comprising not more than six residential units, including vacant land municipally zoned principally for residential development described in this clause; or
- (b) as conservation or recreational land.

CLASS 2

Property assessed either,

- (a) as residential and comprising seven or more residential units, including vacant land municipally zoned principally for residential development described in this clause; or

CLASS 3

Property assessed as commercial, including vacant land municipally zoned principally for commercial development.

CLASS 4

Property assessed as industrial, including vacant land municipally zoned principally for industrial development.

CLASS 5

Property assessed as farm land.

CLASS 6

THE ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 761/81.

Exemption—Ministry of

Government Services—MGS-47.

Made—October 26th, 1981.

Approved—November 5th, 1981.

Filed—November 13th, 1981.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF GOVERNMENT SERVICES—MGS-47

Having received a request from the Minister of Government Services that an undertaking, namely:

The activity of constructing an addition to the Ministry of Health Ambulance Station located at the Queensway Carleton Hospital at 3045 Baseline Road in Ottawa,

be exempt from the application of the Act pursuant to Section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons indicated will occur:

- A. The Crown will be damaged and interfered with by the undue expense required to prepare an environmental assessment for an undertaking that will have no significant adverse effect on the environment;
- B. The public will be interfered with in that the level of service available from the Ministry of Health, the efficiency with which it is effected and the access to that service is restricted by the existing inadequate accommodations.

Having weighed such damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being made subject to the application of the Act.

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The Minister of Government Services has assured me that adequate municipal services exist to accommodate the proposed development and that the development is in compliance with the site's existing zoning; and

- B. The Minister of Government Services intends to, prior to December 31, 1981, submit for approval under the Act a class environmental assessment. Special lease projects such as the Ottawa Ambulance Station addition will be dealt with in that class environmental assessment.

This exemption order is subject to the following terms and conditions:

1. That tenders for construction of the facility be awarded no later than June 1, 1982; and
2. That the Ministry of Government Services notify the Environmental Approvals Branch, Ministry of the Environment between 30 and 100 days prior to the calling of tenders for the project, advising that the Ministry of Government Services has reviewed the undertaking and is of the opinion that the current situation under which the undertaking is proposed is unchanged from the situation that existed on the date that this exemption order was issued. THE ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 762/81.

Exemption—Ministry of

the Environment—MOE-22.

Made—November 5th, 1981.

Approved—November 5th, 1981.

Filed—November 13th, 1981.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF THE ENVIRONMENT—MOE-22

Having received a request from the Minister of the Environment that an undertaking, namely:

The activity of establishing and operating remote treatment facilities for the processed organic waste, (sludge) produced at the following sewage treatment plants, (STP):

Geraldton STP;
 Ignace STP;
 Nakina STP;
 Atikokan STP;
 Marathon STP; and
 Terrace Bay STP,

be exempt from the application of the Act pursuant to Section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons indicated will occur:

- A. The Crown will be damaged and interfered with by the undue expense required to prepare environmental assessments for projects that will have no significant adverse effects on the environment.

Having weighed such damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act.

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. This order exempts the establishment and operation of drying facilities for the sludge that is produced at the six sewage treatment plants described above. It is anticipated that this type of activity will be handled, in the future, under class environmental assessment procedures; and
- B. The drying facilities will be established in locations remote from the sewage treatment plants. Alternatives to remote drying facilities including on-site drying beds, incineration and agricultural use were considered. These alternatives were rejected on the basis that they would be too close to residential areas, would require a large capital outlay and the fact that there is a scarcity of suitable agricultural land. The location for the remote drying beds was selected in consultation with the Ministry of the Environment and the local Municipal Health Units, and the Ministry of Natural Resources, where Crown land was involved. No environmental problems are associated with these remote sites.

This exemption order is subject to the following terms and conditions:

1. Construction of the projects shall commence no later than December 31, 1981. O. Reg. 762/81.

EXEMPTION—THE CORPORATION OF THE TOWN OF PORT HOPE—PHOP-T-1

Having received a request from the Corporation of the Town of Port Hope (the "Town") that an undertaking, namely:

The replacement and operation of the Walton Street Bridge over the Ganaraska River, in the Town,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons and property indicated will occur:

- A. The Town and the property owners and residents of the Town may endure damage to property and/or loss of life by flooding.

Having weighed such damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Replacement of the Walton Street Bridge would bring some immediate relief from the risk of flooding for parts of the central business district of the Town.
- B. The Port Hope Flood Control Environmental Assessment Report has been jointly submitted by the Town and the Ganaraska Region Conservation Authority. The replacement of the Walton Street Bridge by the Town was an activity previously exempt from the Act by Ontario Regulation 468/80. The formal submission of the environmental assessment by the Town and the Authority made this otherwise exempt activity subject to the Act. I am of the opinion that the proponents inadvertently included the Walton Street Bridge replacement in the description of the undertaking in the environmental assessment without realizing that such inclusion had the effect of ending the exemption under the Regulation.
- C. The Town and the Authority have indicated that the undertaking is unlikely to have any significant environmental impacts so long as it is carried out in a responsible manner.
- D. The exemption of this undertaking will not affect the review, acceptance and approval or disapproval of any of the remaining parts of the overall flood control project.

This exemption is subject to the following terms and conditions:

- 1. Prior to construction, the design of the bridge and related river channel works shall be approved by the Lindsay District Manager of the Ministry of Natural Resources with regard to the protection of fish habitat and the Ganaraska Region Conservation Authority with regard to the longer term flood damage reduction objectives identified for the Ganaraska River.
- 2. In order to ensure that construction of the undertaking will not interfere with the migration of salmonid fish species, construction activities shall be prohibited in the watercourse during the periods of March 1 to June 15 and September 15 to December 1.

- 3. Construction of the undertaking shall be conducted in accordance with the Ministry of the Environment's publication, "Evaluating Construction Activities Impacting on Water Resources", specifically section 9 (Bridge Construction). A report outlining each phase of the construction project and highlighting the technique and sequence of channel excavation will be filed with the Director of the Environmental Approvals Branch of the Ministry of the Environment within 30 days of the commencement of construction.
- 4. The Town will be responsible for monitoring the construction site for the presence of contaminated materials. If during excavation, any radioactive materials are found, (in excess of normal background levels of gamma radiation for that area), the proponent will ensure that these materials are deposited in an approved disposal site. If an approved site is not available (either temporary or final), the material will be left stored and protected at the site until it can be transported to an approved disposal site.
- 5. The Town will ensure that any construction activity or blasting with respect to the undertaking will be carried out in accordance with the provisions of the Model Municipal Noise Control By-law (1978), specifically, Construction Equipment (Publication NPC-115) and Blasting (Publication NPC-119), measured in accordance with the procedures referred to in the model By-law. A monitoring program regarding noise and vibration from blasting will be established and an outline submitted to the Noise Pollution Control Section, Ontario Ministry of the Environment for their information. Action will be taken immediately to correct any problems. Should there be complaints about dust, action will be taken to rectify the problem to the satisfaction of the Ministry of the Environment.
- 6. A monitoring report outlining specific environmental protection measures regarding erosion, contaminated materials, building damage, excessive noise and dust, and the success and failure of these measures shall be filed with the Environmental Approvals Branch of the Ministry of the Environment as part of the Public Record on the project and a copy made available for public inspection in the Office of the Clerk of the Town. O. Reg. 788/81.

Minister of the Environment

THE ENVIRONMENTAL PROTECTION
ACT

O. Reg. 808/81.
Hauled Liquid Industrial Waste
Disposal Sites.
Made—November 27th, 1981.
Filed—December 1st, 1981.

R.O.C. 463/81

Whereas, provincial initiatives to regulate waste disposal sites began in 1970 with the enactment of *The Waste Management Act* and continued under *The Environmental Protection Act, 1971*; and

Whereas, by an amendment to *The Environmental Protection Act, 1971*, in 1972, a mandatory hearing was required before the Director could approve or refuse to approve certain kinds of waste disposal sites or certain kinds of alterations to sites; and

Whereas, the mandatory hearing requirement relates to the disposal of hauled liquid industrial waste or

hazardous waste and to substantial increases in disposal of waste; and

Whereas, in a certification process on such a scale, some clerical oversight inevitably crept in and, in some cases, cannot be corrected under the present law without fulfilling the requirement of a hearing; and

Whereas, two recent decisions of the Divisional Court concerning Ridge Landfill Corporation Limited have served to clarify certain aspects of the administration of the ongoing program for regulation of waste disposal sites, but have also served to highlight historical problems of a clerical nature in the Ridge Landfill site situation, and also various analogous problems in other landfill sites which, like Ridge, accept hauled liquid industrial waste for disposal by landfilling; and

Whereas, the continuing operation of the commercial landfill sites serving the needs of Ontario industry by accepting hauled liquid industrial waste for disposal by landfilling is essential today; and

Whereas, the implications of the Ridge court decisions may mean that some of these sites are not legally entitled to continue their present operations; and

Whereas, forcing hearings upon these sites for continuation of their present operations, would be unreasonable, as it is contemplated that untreated hauled liquid industrial waste will be prohibited from going to most of these sites when the Ontario Waste Management Corporation has provided an environmentally sound treatment and disposal facility for hauled liquid industrial waste; and

Whereas, the present operation of the sites in question is environmentally acceptable; and

Whereas, this regulation ought not to apply in respect of the Ridge Landfill Corporation Limited landfilling site as it has applied for a provisional certificate of approval to expand its acceptance of solid wastes for disposal and terminate its acceptance of hauled liquid industrial waste;

Therefore, on the recommendation of the undersigned, the Lieutenant Governor, by and with the advice and concurrence of the Executive Council, orders that the appended Regulation be made under the *Environmental Protection Act*.

Minister of the Environment

Concurred GEORGE R. MCCAGUE
Chairman

Approved and Ordered, November 27, 1981.

Note

The use of tetracyclines during tooth development (last half of pregnancy, infancy and childhood to the age of 8 years) may cause permanent tooth discoloration (yellow-grey-brown). This reaction is more common during long-term use of the tetracyclines, but has been observed following short-term courses. Enamel hypoplasia has also been reported. Tetracyclines should therefore not be used in this age group unless other antibiotics are not likely to be effective or are contraindicated.

Hypertension: Fixed Combination Drugs

A fixed combination drug is not indicated for initial therapy of hypertension. Hypertension requires therapy titrated to the individual patient. Recognizing this, if the fixed combination drug meets that titrated dose of its individual components, its use may be more convenient in the management of the individual patient. The treatment of hypertension is not static, it must be re-evaluated as conditions in each patient warrant. Adapted from F-D-C Reports, Sept. 11, 1972, p.8 (FDA Cardiovascular Advisory Committee).

Hypertension: Fixed Combination Drugs

A fixed combination drug is not indicated for initial therapy of hypertension. Hypertension requires therapy titrated to the individual patient. Recognizing this, if the fixed combination drug meets that titrated dose of its individual components, its use may be more convenient in the management of the individual patient. The treatment of hypertension is not static; it must be re-evaluated as conditions in each patient warrant. Adapted from F-D-C Reports, Sept. 11, 1972, p. 8 (FDA Cardiovascular Advisory Committee).
